

Evidence-Based Certification Funding Recommendation

Target role: AI Engineer

Generated for ML Club funding review. Jobs analyzed: 5.

Fund AWS Certified Machine Learning Engineer - Associate first. It has the strongest evidence score for this sample because it covers 5 of the most demanded skill clusters, while the leading job-market signals include Python, Kubernetes, SQL, AWS, Docker.

Executive Summary

This report maps job-market skill demand to certifications that validate those skills. Demo data is clearly labeled when live API credentials are not configured.

Top Skill	Category	Job %
Python	Programming Languages	100%
Kubernetes	MLOps / Deployment	80%
SQL	Programming Languages	60%
AWS	Cloud Platforms	60%
Docker	MLOps / Deployment	60%
RAG	LLM / Generative AI	40%
Scikit-learn	AI/ML Frameworks	40%
Model Evaluation	MLOps / Deployment	40%
MLflow	MLOps / Deployment	40%
Model Monitoring	MLOps / Deployment	40%

Methodology

Certeveryn collects permissioned job data, stores source URLs, extracts skills with a transparent taxonomy, normalizes aliases, and scores certifications against demanded skills. Full job descriptions are used locally for analysis but are not republished.

Scoring formula: 30% job skill demand, 20% required skill coverage, 15% role alignment, 10% provider signal, 10% cost-benefit, 10% beginner accessibility, and 5% evidence confidence.

Certification Comparison

Certification	Provider	Status	Score
AWS Certified Machine Learning Engineer - Associate	AWS	active	52.6%
AWS Certified Data Engineer - Associate	AWS	active	46.7%
Microsoft Certified: Azure AI Fundamentals	Microsoft	active	45.9%
AWS Certified AI Practitioner	AWS	active	45.7%
Databricks Certified Machine Learning Associate	Databricks	unknown	45.6%
Microsoft Certified: Azure AI Engineer Associate	Microsoft	retiring	45.2%
AWS Certified Solutions Architect - Associate	AWS	active	45.1%
Google Cloud Professional Data Engineer	Google Cloud	active	42.2%

Certification-to-Skill Coverage

Certification	Covered Demanded Skills
AWS Certified Machine Learning Engineer - Associate	Python, AWS, MLflow, Model Monitoring, AWS SageMaker
AWS Certified Data Engineer - Associate	SQL, AWS
Microsoft Certified: Azure AI Fundamentals	Azure, Azure Machine Learning
AWS Certified AI Practitioner	AWS
Databricks Certified Machine Learning Associate	Python, SQL, MLflow

Recommended Certification Path

1. Start with a foundational AI/cloud certification for broad vocabulary and confidence.
2. Fund the highest-ranked role-aligned AI/ML certification for students pursuing cloud AI roles.
3. Add a data or MLOps certification when postings emphasize pipelines, Kubernetes, and model operations.

Limitations and Source Transparency

Recommendations are evidence-based but not a guarantee of employment. Confidence depends on sample size, source mix, recency, and the completeness of certification objective pages.

Source	Status	Message
demo	ok	Fetches 5 of 5 requested labeled demo jobs
